MATERIAL SAFETY DATA SHEET

			1 11		• •							
1. P	PRODUCT IDENTIFICATION AND COMPANY											
ls	ssue Date	01.01.2023										
V	/alidity Period	3 уе	3 years									
P	Product Name	МІТ	ASU I	PLAT	ΓΙΝUI	M PAO Plus S	P 5W-50	100% Synthetic				
Р	Product Code	MJ-	MJ-113									
		Mitasu Oil Corporation										
Р	Producer	1-2- Tel: E-m										
2. C	COMPOSITION											
В	Base Oil Content	70	_	85	%							
А	additives Content	15	_	30	%							
3. H	HAZARDS IDENTIFICATION											
F	luman Health	Product is not hazardous.										
E	Eye Contact	Slig	Slightly irritant.									
	nhalation	Repeated and prolonged over-exposure to oil mists may cause irritation discomfort.							use irritation or			
lr	ngestion	Mini	Minimal toxicity.									
S	Safety Hazards	Not classified as flammable but will burn.										
	nvironmental lazards	Not readily biodegradable.										
+												
1. F	FIRST AID											
E	Eye Contact		Flush eyes with large amount of water until irritation subsides. If irritation persists, get medical attention.									
S	Skin Contact	Flush with large amount of water; use soap if available. Remove contamination clothing. If irritation persists, get medical attention.							nove contaminated			
Ir	nhalation	Ren	nove t	o fres	sh aiı	. If rapid recov	ery does	s not occur, get me	edical attention.			
Ingestion Do not induce vomiting. If rapid recovery does not occur, get medi								t medical attention.				
"												

Flam	n Point			s flam	mable but will bu	ırn H	lazardaua combuction					
	mable Limit		sified as	s flam	mable but will bu	ırn H	lazardaua combuction					
Auto		Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.										
,	ignition Temp	> 312	2 °C									
Spec	cific Hazards		arbon r	mono	xide, oxides of su		lazardous combustion produ r, and unidentified organic ar					
Fire	Fighting	splatterir	Use dry chemical, foam or carbon dioxide to extinguish fire. Water may cause splattering or frothing. Use water to cool and protect fire-exposed material. Wear protective equipment during fire fighting.									
6. ACC	IDENTAL RELEAS	SE MEAS	SE MEASURES									
Clea	n-up Procedure	generou	Stop the source of leak or release and contain spill if possible. Cover spill with generous amount of inert absorbent material such as sand or earth. Sweep up and emove to suitable, clearly marked containers for disposal in accordance with local egulati.									
7. HAN	DLING AND STOR	RAGE										
Hand	dling	equipme	Handling temperatures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided.									
Stora	age	Storage temperatures should be maintained between 0 to 50°C. Odorous and toxic fumes may be evolved from decomposition of product if stored above the safe temperature.										
B. EXP	OSURE CONTROI	L/PERSO	NAL P	ROTE	ECTION							
Expo	osure Limits	Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 lower for exposure of 8 hours daily.										
Vent	ilation	Exhaust ventilation to keep below exposure limits.										
Eye	Protection	Wear sa	Wear safety glasses or face shields if splashing is likely to occur. Avoid repeated and prolonged contact with product. Use oil resistant gloves.									
Skin	Protection	Avoid re										
Poor	piratory Protection	Not norn	Not normally required unless in confined space.									
Kest	matory Frotection		-					-lb				
Body	Protection	Use proper protective equipment to avoid contact. Wear PVC apron if splashes are likely to occur.										
PHY	SICAL AND CHEM	IICAL PR	OPERI	ΓIES				-				
This healt	This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not be construed as guaranteeing any specific property of the product.											
TES	T DESCRIPTION	u	NIT		METHOD		TYPICAL RESULTS

	Pour Point	°C	D 97	-42							
	ccs	сР	D 5293	5883							
10.	STABILITY AND REACTIVITY										
	Stability	Product is stable under normal use conditions.									
	Thermal Decomposition	Carbon monoxide, carbon dioxide, oxides of sulphur and nitrogen and organic and inorganic compound may evolve when subject to heat or combustion.									
	Hazardous Polymerisation	Will not occur under normal conditions.									
	Incompatible Materials										
11.	TOXICOLOGICAL INFORMATION										
	Basis	No toxicological data is available for this product. Information is provided base the additives, other components and base stock used.									
	Acute Exposure Oral	LD 50 expected to be above 2000 mg/kg									
	Acute Exposure Skin	LD 50 expected to be above 2000 mg/kg									
	Inhalation	Repeated or prolonged exposure to oil mists may cause irritation.									
	Eye Irritation	Slightly irritant.									
	Skin Irritation	Not a skin irritant unless repeated or prolonged contact.									
	Respiratory Irritation	Slight irritant.									
	Carcinogenicity	No data to suggest that product is carcinogenic.									
	agenic.										
	Other Information	Brief contact with used oil is not expected to have serious effect in humans if the oil is removed thoroughly by washing with soap and water.									
	Used engine oils may contain harmful impurities that have accumulated during use. The concentration of such impurities will depend on use and they present risks to health and the environment on disposal. All used oils should be handled with caution.										
12.	ECOLOGICAL INFORM	MATION									
	Basis	No ecological data the additives, other		product. Information is provided base stock used.	ased on						

	Mobility Liquid under most environmental conditions. Floats on water. It is absorbed by soil and will not be mobile.										
	Persistence/ Degradability	Not readily biodegradable. Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the environment.									
	Bioaccumulation	Has the	potentia	l to bioaccu	ımulate.						
	Ecotoxicity	Poor sol May cau	.								
13.	DISPOSAL CONSIDERATION										
	Product Disposal		Used or waste oil should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.								
	Container Disposal	Empty drums should be completely drained and sent to a drum reconditioner or properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.									
14.	TRANSPORT INFOR	MATION									
	General Information	Not dang	gerous fo	or conveya	nce under l	JN, IMO,	ADR/RID and I	ATA/ICAO	codes.		
15.	15. REGULATORY INFORMATION Not Applicable.										
16.	OTHER INFORMATIO	R INFORMATION									
	The above information is based on data of which we are aware and is believed to be correct as of the date hereof. Since the information contained herein may be applied under conditions beyond our control and with which we may be unfamiliar and since data made available subsequent to the date hereof may sugges modifications of the information, we do not assume any responsibility for the results of its use. This information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose. Therefore, no warranty either express or implied of merchantability or fitness for particular purpose is made with respect to the product or the information contained herein.
