## MATERIAL SAFETY DATA SHEET

1. PRODUCT IDENTIF	ICATION AND COMPANY												
Issue Date	01.0	01.01.2023 3 years MITASU MULTI VEHICLE DCTF 100% Synthetic											
Validity Period	3 уе												
Product Name	МІТ												
Product Code	MJ-:	MJ-351											
	Mita	Mitasu Oil Corporation 1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp											
Producer	Tel:												
COMPOSITION													
Base Oil Content	78	-	95	%									
Additives Content	5	-	22	%									
3. HAZARDS IDENTIF		N											
Human Health													
Eye Contact		Product is not hazardous. Slightly irritant. Repeated and prolonged over-exposure to oil mists may cause irritation or discomfort.											
Inhalation	Rep												
Ingestion	Mini	mal to	xicity										
Safety Hazards	Not	Not classified as flammable but will burn.											
Environmental Hazards	Not	Not readily biodegradable.											
4. FIRST AID	FIRST AID												
Eye Contact		Flush eyes with large amount of water until irritation subsides. If irritation persists, get medical attention.Flush with large amount of water; use soap if available. Remove contaminated clothing. If irritation persists, get medical attention.Remove to fresh air. If rapid recovery does not occur, get medical attention.Do not induce vomiting. If rapid recovery does not occur, get medical attention.											
Skin Contact													
Inhalation	Rem												
Ingestion	Do r												
5. FIRE SAFETY	AFETY												

	Flash Point	>	203 °C											
	Flammable Limit	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.												
	Autoignition Temp	> 298 °C												
	Specific Hazards	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.												
	Fire Fighting	Use dry chemical, foam or carbon dioxide to extinguish fire. Water may cause splattering or frothing. Use water to cool and protect fire-exposed material. Wear protective equipment during fire fighting.												
6.	ACCIDENTAL RELEAS	SE MEASURES												
	Clean-up Procedure	Stop the source of leak or release and contain spill if possible. Cover spill with generous amount of inert absorbent material such as sand or earth. Sweep up and remove to suitable, clearly marked containers for disposal in accordance with local regulati.												
7.	HANDLING AND STOP	RAGE												
	Handling	Handling temperatures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided.												
	Storage	Storage temperatures should be maintained between 0 to 50°C. Odorous and toxic fumes may be evolved from decomposition of product if stored above the safe temperature.												
8.	EXPOSURE CONTROL	L/PEF	RSONAL	PR	ΟΤΙ	ECTION								
	Exposure Limits		Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily.											
	Ventilation	Exha	aust ventil	atio	on t	o keep below expo	osure	e limits.						
	Eye Protection	Wea	ar safety g	las	ses	or face shields if	spla	shing is likely to occur.						
	Skin Protection	Avoid repeated and prolonged contact with product. Use oil resistant gloves.												
	Respiratory Protection	Not normally required unless in confined space.												
	Body Protection	Use proper protective equipment to avoid contact. Wear PVC apron if splashes are likely to occur.												
9.	PHYSICAL AND CHEM	AICAL PROPERTIES												
	This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not be construed as guaranteeing any specific property of the product.													
	TEST DESCRIPTION		UNIT			METHOD		TYPICAL RESULTS						
	Color					Visual		Neutral Yellow						
	Density at 15 °C		kg/l	+		D 4052		0,8440						
	Kinematic Viscosity at 40 °C		cSt			D 445		24,60						
	Kinematic Viscosity 100 °C	at cSt D 445 7,20												

	Viscosity Index	-		D 2270	178							
	Flash Point, COC	°C		D 92	200							
	Pour Point	°C		D 97	-45							
10.	STABILITY AND REA	CTIVITY										
	Stability Product is stable under normal use conditions.											
	Thermal Decomposition				es of sulphur and nitroger hen subject to heat or com							
	Hazardous Polymerisation Will not occur under normal conditions.											
	Incompatible Materials	Strong oxidizing agents. Strong acids										
11.	TOXICOLOGICAL INF											
	Basis	s product. Information is prosession is prosession of the stock used.	ovided based on									
	Acute Exposure Oral	LD 50 expected to be above 2000 mg/kg										
	Acute Exposure Skin	Repeated or prolonged exposure to oil mists may cause irritation.   Slightly irritant.   Not a skin irritant unless repeated or prolonged contact.										
	Inhalation											
	Eye Irritation											
	Skin Irritation											
	Respiratory Irritation											
	Carcinogenicity	No data to suge	gest	that product is carci	nogenic.							
	Mutagenicity	No data to sug	gest that product is mutagenic.									
	Other Information Brief contact with used oil is not expected to have serious effect in humans if oil is removed thoroughly by washing with soap and water.											
Used engine oils may contain harmful impurities that have accumulat use. The concentration of such impurities will depend on use and the risks to health and the environment on disposal. All used oils should with caution and skin contact should be avoided.												
12.												
	Basis	No ecological data is available for this product. Information is provided base the additives, other components and base stock used.										
	Mobility	Mobility Liquid under most environmental conditions. Floats on water. It is absorbed by soil and will not be mobile.										
	Persistence/ Degradability	Not readily biodegradable. Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the environment.										

	Bioaccumulation	Has the potential to bioaccumulate.											
	Ecotoxicity	Poor soluble mixture. Practically non-toxic to aquatic organisms. May cause physical fouling of aquatic organisms.											
<u> </u>													
13.	DISPOSAL CONSIDE												
	Product Disposal	Used or waste oil should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.											
	Container Disposal	Empty drums should be completely drained and sent to a drum reconditioner or properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.											
14.	TRANSPORT INFOR	RMATION											
	General Information	Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.											
15.	REGULATORY INFOR	RMAT	ON										
	Not Applicable.												
16.	OTHER INFORMATION												
	The above information is based on data of which we are aware and is believed to be correct as of the date hereof. Since the information contained herein may be applied under conditions beyond our control and with which we may be unfamiliar and since data made available subsequent to the date hereof may suggest modifications of the information, we do not assume any responsibility for the results of its use. This information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose. Therefore, no warranty either express or implied of merchantability or fitness for particular purpose is made with respect to the product or the information contained herein.
