MATERIAL SAFETY DATA SHEET

SHEET												
1. PRODUCT IDEN	PRODUCT IDENTIFICATION AND COMPANY											
Issue Date	01.0	01.01.2024										
Validity Period	3 уе	3 years										
Product Name	МІТ	MITASU LOW VISCOCITY MV DCTF 100% Synthetic										
Product Code	MJ-	MJ-353										
	Mita	asu Oi	l Cor	pora	ion							
Producer	Tel:	1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp										
2. COMPOSITION	COMPOSITION											
Base Oil Conten	t 78	_	95	%								
Additives Conter	nt 5	-	22	%								
3. HAZARDS IDEN	HAZARDS IDENTIFICATION											
Human Health	Health Product is not hazardous.											
Eye Contact	Slig	Slightly irritant.										
Inhalation		Repeated and prolonged over-exposure to oil mists may cause irritation or discomfort.										
Ingestion	Mini	mal to	xicity									
Safety Hazards	Not	Not classified as flammable but will burn.										
Environmental Hazards	Not	Not readily biodegradable.										
FIRST AID	FIRST AID											
Eye Contact	Flush eyes with large amount of water until irritation subsides. If irritation persis get medical attention.					bsides. If irritation persists,						
	Flus	Flush with large amount of water; use soap if available. Remove contaminated clothing. If irritation persists, get medical attention.										
Skin Contact		iii ig. i		Remove to fresh air. If rapid recovery does not occur, get medical attention.								
Skin Contact Inhalation	clotl		o fres	h air	If rapid recovery does not occur, o	get medical attention.						
	clot	nove to			If rapid recovery does not occur, ong. If rapid recovery does not occur							

	Flash Point	> 2	205	°C									
					flar	nmable but will burr	n. F	lazardous combustion					
	Flammable Limit	products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.											
	Autoignition Temp	> ;	300	°C									
	Specific Hazards	Not classified as flammable but will burn. Hazardous combustion products include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.											
	Fire Fighting	Use dry chemical, foam or carbon dioxide to extinguish fire. Water may cau splattering or frothing. Use water to cool and protect fire-exposed material. protective equipment during fire fighting.											
5.	ACCIDENTAL RELEASE MEASURES												
	Clean-up Procedure	Stop the source of leak or release and contain spill if possible. Cover spill with generous amount of inert absorbent material such as sand or earth. Sweep up an remove to suitable, clearly marked containers for disposal in accordance with local regulati.							eep up and				
7.	HANDLING AND STOP	RAGE											
	Handling	Handling temperatures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided.											
	Storage	Storage temperatures should be maintained between 0 to 50°C. Odorous and toxic fumes may be evolved from decomposition of product if stored above the safe temperature.											
3.	EXPOSURE CONTROL/PERSONAL PROTECTION												
	Exposure Limits	Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily.											
	Ventilation	Exhaust ventilation to keep below exposure limits.											
	Eye Protection	Wear safety glasses or face shields if splashing is likely to occur.											
	Skin Protection	Avoid repeated and prolonged contact with product. Use oil resistant gloves.											
	Respiratory Protection												
	. teephatery i fotodion												
	Body Protection	Use proper protective equipment to avoid contact. Wear PVC apron if splashes are likely to occur.

	Viscosity Index	-		D 2270		172						
	Flash Point, COC	°C		D 92		210						
	Pour Point	°C		D 97		-51						
10.	STABILITY AND REACTIVITY											
	Stability	Product is stable under normal use conditions.										
	Thermal Decomposition	Carbon monoxide, carbon dioxide, oxides of sulphur and nitrogen and organic and inorganic compound may evolve when subject to heat or combustion.										
	Hazardous Polymerisation	Will not occur under normal conditions.										
Incompatible Materials Strong oxidizing agents. Strong acids												
1.	TOXICOLOGICAL INFO	1										
	Basis	No toxicological data is available for this product. Information is provided based on the additives, other components and base stock used.										
	Acute Exposure Oral	LD 50 expected to be above 2000 mg/kg										
Acute Exposure Skin LD 50 expected to be above 2000 mg/kg												
	Inhalation	Repeated or prolonged exposure to oil mists may cause irritation.										
	Eye Irritation	Slightly irritant.										
	Skin Irritation	Not a skin irritant unless repeated or prolonged contact.										
	Respiratory Irritation	Slight irritant.										
	Carcinogenicity	No data to suggest that product is carcinogenic.										
	Mutagenicity	No data to suggest that product is mutagenic.										
	Other Information	Brief contact with used oil is not expected to have serious effect in humans if the oil is removed thoroughly by washing with soap and water.										
		Used engine oils may contain harmful impurities that have accumulated during use. The concentration of such impurities will depend on use and they present risks to health and the environment on disposal. All used oils should be handled with caution and skin contact should be avoided.										
12	ECOLOGICAL INFORM	AATION										
2.	No ecological data is available for this product. Information is provided based on											
	Mobility	the additives, other components and base stock used. Liquid under most environmental conditions. Floats on water. It is absorbed by soil and will not be mobile.										
	Persistence/ Degradability	Not readily biodegradable. Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the environment.										
	1											

	Bioaccumulation	Has the potential to bioaccumulate. Poor soluble mixture. Practically non-toxic to aquatic organisms. May cause physical fouling of aquatic organisms.								
	Ecotoxicity									
13.	DISPOSAL CONSIDERATION									
	Product Disposal	Used or waste oil should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.								
	Container Disposal	Empty drums should be completely drained and sent to a drum reconditioner or properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.								
14.	TRANSPORT INFOR	RMATION								
	General Information	Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.								
15.	REGULATORY INFORMATION									
	Not Applicable.									
16.	OTHER INFORMATION									
	The above information is based on data of which we are aware and is believed to be correct as of the date hereof. Since the information contained herein may be applied under conditions beyond our control and with which we may be unfamiliar and since data made available subsequent to the date hereof may suggest modifications of the information, we do not assume any responsibility for the results of its use. This information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose. Therefore, no warranty either express or implied of merchantability or fitness for particular purpose is made with respect to the product or the information contained herein.
