

MITASU OIL CORPORATION

1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp

MATERIAL SAFETY DATA SHEET

1.	PRODUCT IDENTIFICA	TION AND COMPANY										
	Issue Date		23									
	Validity Period	3 years MITASU LITHIUM COMPLEX EP GREASE NLGI 3 MJ-821										
	Product Name											
	Product Code											
		Mitasu Oil Corporation										
	Producer	Tel:	1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp									
2.	COMPOSITION											
	Base Oil Content	71	-	88	%							
	Additives Content	12	_	29	%							
3.	HAZARDS IDENTIFICA	TION	1									
	Human Health	Product is not hazardous. Slightly irritant. Repeated and prolonged over-exposure to oil mists may cause irritation or discomfort.										
	Eye Contact											
	Inhalation											
	Ingestion	Mini	Minimal toxicity.									
	Safety Hazards	Not	Not classified as flammable but will burn.									
	Environmental Hazards	Not	Not readily biodegradable.									
4.	FIRST AID											
	Eye Contact		Flush eyes with large amount of water until irritation subsides. If irritation persists, get medical attention. Flush with large amount of water; use soap if available. Remove contaminated clothing. If irritation persists, get medical attention.									
	Skin Contact											
	Inhalation	Remove to fresh air. If rapid recovery does not occur, get medical attention.										
	Ingestion	Do not induce vomiting. If rapid recovery does not occur, get medical attention.										

5.	FIRE SAFETY												
	Flash Point	>	200	°C									
	Flammable Limit	Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.											
	Autoignition Temp	>	300	°C									
	Specific Hazards		Not classified as flammable but will burn. Hazardous combustion products may include carbon monoxide, oxides of sulphur, and unidentified organic and inorganic compounds.										
	Fire Fighting	or f	Use dry chemical, foam or carbon dioxide to extinguish fire. Water may cause splattering or frothing. Use water to cool and protect fire-exposed material. Wear protective equipment during fire fighting.										
6.	ACCIDENTAL RELEAS	EM	EASU	IRES				·					
	Clean-up Procedure	Stop the source of leak or release and contain spill if possible. Cover spill with generous amount of inert absorbent material such as sand or earth. Sweep up and remove to suitable, clearly marked containers for disposal in accordance with local regulati.											
7.	HANDLING AND STOR	AGE						1		1			
	Handling	equ	Handling temperatures should not exceed 70°C. Wear proper safety protective equipment. Wash hands thoroughly after handling. Water contamination and spillage should be avoided.										
	Storage	fum	Storage temperatures should be maintained between 0 to 50°C. Odorous and toxic fumes may be evolved from decomposition of product if stored above the safe temperature.										
8.	EXPOSURE CONTROL	/PEF	RSON	AL P	RO	FECTION		1					
	Exposure Limits		Threshold Limit Values for oil mist is recommended to be controlled at 5 mg/m3 or lower for exposure of 8 hours daily.										
	Ventilation	Exh	aust	ventila	atior	n to keep bel	ow	exposure limits.					
	Eye Protection	We	Wear safety glasses or face shields if splashing is likely to occur.										
	Skin Protection	Avoid repeated and prolonged contact with product. Use oil resistant gloves.											
	Respiratory Protection	Not normally required unless in confined space.											
	Body Protection	Use proper protective equipment to avoid contact. Wear PVC apron if splashes are likely to occur.											

9. PHYSICAL AND CHEMICAL PROPERTIES											
	This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not be construed as guaranteeing any specific property of the product.										
	TEST DESCRIPTION	UNIT	METHOD	TYPICAL RESULTS							
	NLGI Grade			# 3							
	Thickener Type			lithium complex							
	Colour		Visual	Blue Smooth							
	Texture										
	Dropping point	°C	ASTM D-2265	240							
	Worked penetration @25°C		ASTM D-217	220-250							
	Timken ok load	PSI	ASTM D-2509	45							
	Water Wash-out		ASTM D-1264	PASS							
	Rust and Corrosion Test		ASTM D-1743	PASS							
0.	STABILITY AND REACTIVITY										
	Stability	Product is stat	ole under normal use	conditions.							
	Thermal Decomposition	Will not occur under normal conditions.									
	Hazardous Polymerisation										
	Incompatible Materials										
1.	OXICOLOGICAL INFORMATION										
	Basis	No toxicological data is available for this product. Information is provided based on the additives, other components and base stock used. Exposure Oral LD 50 expected to be above 2000 mg/kg									
	Acute Exposure Oral										
	Acute Exposure Skin	LD 50 expected to be above 2000 mg/kg Repeated or prolonged exposure to oil mists may cause irritation.									
	Inhalation										
	Eye Irritation	Slightly irritant.									
	Skin Irritation	Not a skin irritant unless repeated or prolonged contact.									
	Respiratory Irritation	Slight irritant.									
	Carcinogenicity	No data to suggest that product is carcinogenic. No data to suggest that product is mutagenic. Brief contact with used grease is not expected to have serious effect in humans if the original removed thoroughly by washing with soap and water.									
	Mutagenicity										
	Other Information										
		Used grease may contain harmful impurities that have accumulated during use. The concentration of such impurities will depend on use and they present risks to health and the environment on disposal. All used greases should be handled with caution.									

12	ECOLOGICAL INFORMATION											
	Basis		No ecological data is available for this product. Information is provided based on the additives, other components and base stock used.									
	Mobility		Similar to soap substance under most environmental conditions. Floats on water. It is absorbed by soil and will not be mobile.									
	Persistence/ Degradability		Not readily biodegradable. Major constituents are expected to be inherently biodegradable, but the product contains components that may persist in the environment.									
	Bioaccumulation	Has	Has the potential to bioaccumulate.									
	Ecotoxicity		Poor soluble mixture. Practically non-toxic to aquatic organisms. May cause physical fouling of aquatic organisms.									
13	DISPOSAL CONSIDE	DISPOSAL CONSIDERATION										
	Product Disposal		Used or waste grease should be recycled or disposed off in conformity to local disposal regulations. Contact local authorities for approved disposal contractor.									
	Container Disposal	disp	Empty drums should be completely drained and sent to a drum reconditioner or properly disposed of. Non-reusable small containers should be recycled or disposed of. Ensure conformity to local disposal regulations.									
14	TRANSPORT INFORI	ΜΑΤΙΟ	ON									
	General Information	Not dangerous for conveyance under UN, IMO, ADR/RID and IATA/ICAO codes.										
15	REGULATORY INFOR	RMAT	ON									
	Not Applicable.											
16	OTHER INFORMATIO	N										
	The above information is based on data of which we are aware and is believed to be correct as of the date hereof. Since the information contained herein may be applied under conditions beyond our control and with which we may be unfamiliar and since data made available subsequent to the date hereof may suggest modifications of the information, we do not assume any responsibility for the results of its use. This information is furnished upon the condition that the person receiving it shall make his own determination of the suitability of the material for his particular purpose. Therefore, no warranty either express or implied of merchantability or fitness for particular purpose is made with respect to the product or the information contained herein.
