MATERIAL SAFETY DATA SHEET

1.	PRODUCT IDENTIFICATION AND COMPANY									
	Issue Date	01.01.2023	01.01.2023							
	Validity Period	3 years	3 years							
	Product Name	MITASU RED	MITASU RED LONG LIFE ANTIFREEZE/COOLANT - 40°C							
	Product Code									
	Producer	Tel: +81-3-55	1-2-9, Nishi Shimbashi, Minato-Ku,Tokyo, 105-0003, Japan Tel: +81-3-5532-8187. Fax: +81-3-5532-8188 E-mail: info@mitasuoil.co.jp							
2.	COMPOSITION									
	Description	CAS No.	EINECS No.	EU No.	Conc.					
	Deionized water				44-46%					
	Ethylene glycol	107-21-1	203-473-3	603-027-00-1	54-56%					
3.	HAZARDS IDENTIFICATION									
	Human Health	Product is ha	Product is hazardous. Harmful or fatal if swallowed.							
	Eye Contact	May cause m	May cause mild irritation.							
Inhalation Repeated and prolonged over-exposure to mists may cardiscomfort. Ingestion Do not swallow. Toxic by ingestion.					y cause irritation	n or				
	Safety Hazards	Not classified	as flammable but w	rill burn.						
Environmental Biodegradable.										
1.	FIRST AID									
Eye Contact Flush eyes with large amount of water until irritation subsides. get medical attention.						ition persis				
	Skin Contact	use soap if availab nedical attention.	ole. Remove con	taminated						
	Inhalation	Remove to fre	Remove to fresh air. If rapid recovery does not occur, get medical attention.							
			Do not induce vomiting. Seek immediate medical attention.							
	Ingestion	Do not induce	e vomiting. Seek imn	nediate medical att	ention.					

5.	FIRE SAFETY										
	Flash Point	>	111	°C							
	Flammable Limit	Not classified as flammable but will burn. Hazardous combustion products may include carbon oxides, aldehydes, ketones, and unidentified organic and inorganic compounds.									
	Autoignition Temp	Not deter	mine								
	Specific Hazards	products	Not classified as flammable but will burn. Hazardous combustion products may include carbon oxides, aldehydes, ketones, and unidentified organic and inorganic compounds.								
	Fire Fighting	splatterin	Use dry chemical, foam or carbon dioxide to extinguish fire. Water naplattering or frothing. Use water to cool and protect fire-exposed materials or other equipment during fire fighting.								
6.	ACCIDENTAL RELEAS	SE MEAS	URES								
	Clean-up Procedure	generous	amo	unt of inert abs	orbe	nt material suc	h as	possible. Cover sand or earth. S posal in accorda	Sweep up and		
_	LIANDI ING AND STO	1405									
7.	HANDLING AND STOR	-									
	Handling	equipme	nt. Wa					r proper safety ater contaminat			
	Storage	Storage temperatures should be maintained between 0 to 50°C. toxic fumes may be evolved from decomposition of product if storage temperature.									
8.	EXPOSURE CONTROL/PERSONAL PROTECTION										
Exposure Limits Threshold Limit Values for oil mist is recommended to lower for exposure of 8 hours daily.						be controlled at 5 mg/m3 or					
	Ventilation	Exhaust ventilation to keep below exposure limits.									
Eye Protection Wear safety glasses or face shields if splashing is likely to occur.							ely to occur.				
	Skin Protection	Avoid repeated and prolonged contact with product. Use oil resistant gloves.									
	Respiratory Protection	Not normally required unless in confined space.									
Body Protection Use proper protective equipment to avoid contact. Wear PVC apronare likely to occur.								f splashes			
9.	PHYSICAL AND CHEMICAL PROPERTIES										
	This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not be construed as guaranteeing any specific property of the product.										
	TEST DESCRIPTION			UNIT		METHOD		TYPICAL RESULTS			
	Color			-		Visual		Red			
	Donoity at 15 °C			kg/l		D 40E2		1,0700	I		
	Density at 15 °C Density at 30 °C			kg/l		D 4052 D 4052	-	1,0700			

	Pour Point			°C		D 1177		- 40			
10	STADILITY AND DEACTIVITY										
10.	STABILITY AND REACTIVITY Stability Product is stable under normal use conditions.										
	Thermal										
	Decomposition	Carbon oxides, aldehydes, ketones, organic and inorganic compound may evolve when subject to heat or combustion.									
	Hazardous Polymerisation	Will not occur under normal conditions.									
	Incompatible Materials	Strong oxidizing agents.									
11.	TOXICOLOGICAL INFORMATION										
	Basis	The product is toxic. Ethylene glycol is more acutely toxic to humans than to animals.									
	Acute Exposure Oral	LD 50 expected to be above 100 ml									
	Acute Exposure Skin	LD 50 expected to be above 2000 mg/kg									
	Inhalation	Repeated or prolonged exposure to mists may cause irritation.									
	Eye Irritation	Slightly irritant.									
	Skin Irritation	Not a skin irritant unless repeated or prolonged contact.									
	Respiratory Irritation	Mild irritant.									
	Carcinogenicity	No data to suggest that product is carcinogenic.									
	Mutagenicity	No data to suggest that product is mutagenic.									
	Other Information	Brief contact with used product is not expected to have serious effect in humans if the product is removed thoroughly by washing with soap and water.									
		Used product is toxic, may contain harmful impurities that have accumulated during use. The concentration of such impurities will depend on use and they present risks to health and the environment on disposal. All product should be handled with caution.									
12.	ECOLOGICAL INFORMATION										
	Basis	The product is toxic. Ethylene glycol is more acutely toxic to humans than to animals.									
	Mobility	Liquid under most environmental conditions. Floats on water. It is absorbed by soil and will not be mobile.									
	Persistence/ Degradability	Biodegradable.									
	Bioaccumulation	Has not the potential to bioaccumulate.									
	Ecotoxicity	Practically non-toxic to aquatic organisms. Biodegradable.
